Event SUMMARY

Dear Sponsor, Exhibitors & Partners,

AAAM's 13th annual congress in Las Vegas continues to deliver a successful meeting between high-conversion doctors and medical aesthetic vendors.

AAAM continually strives to attract new doctors entering the specialty who are eager to begin their practice and make investments in evolving medical aesthetic discoveries and innovations. This year's scientific program also emphasized different topic-specific breakouts that allow doctors to explore each subcategory of core, contemporary and gender aesthetics in more depth.

And, for the first time, AAAM's annual congress offered 2-full days of Keynote Plenary and Daily Breakouts, further allowing more interaction between exhibitors and our delegate doctors.

Many annual congress participants expressed excitement and gratification over the wide range of topics delivered by excellent speakers from this congress.

A dedicated Wine & Cheese Exhibit Opening & Reception continues to allow two full hours of focused Doctors-Vendors face-to-face interactions to build rapport prior to the official opening of the congress.

Apart from the loyal support of 80% our returning exhibitors; we continue to garner new exhibitors that express satisfaction with the show.

Special thanks go to all our loyal exhibitors, sponsors and partners, for all of their generous and support, who continue to make the show the success that it is. They brought their incredible products, services, and devices from around the continent, displaying the very best of this vibrant innovative industry, and in doing so, helping us to attract so many of the most distinguished delegates from across North America.

With AAAM Annual Congress' expansion of quality doctor participants, as well as the maturing of aesthetic medicine's growing potential, we are confident to deliver yet another quality show in 2017, Nov 10-12 in Miami, Florida! (Do mark your calendar and plan a budget for this show!)

Best Regards,

Shermaine Steeter

Senior Manager, Congress
American Academy of Aesthetic Medicine (AAAM)
