EVENT SUMMARY

The **15th AAAM Annual Congress** concluded at the JW Marriott Miami with yet another conference packed with applicable knowledge in breakthroughs and advances in aesthetic medicine. Leveraging their new learning, we believe our delegates left inspired to deliver gold standard techniques and patient care in their aesthetic medicine practice.

Through 11 Breakouts, the 15th AAAM offered delegates broad options to dig deep into each core and contemporary aesthetic categories, powered by world class speakers that are amongst the best-ranked in each of these sub specialties. While Facial Rejuvenation with Combination Therapies continues to command strong attendance, we also observed a huge growing interest in PDO, Thread-lift Techniques and Application of Stem Cells Therapies. Special thanks to our panel of Keynote Speakers - Prof Leslie Baumann, Dr Paul Rose, Dr Kian Karimi, Dr Omnia Latif and Dr Alejandro Espaillet.

Other highlights of the congress were the two Industry Sponsored Workshops with Live Demos hosted respectively by CosmoFrance and Melano Peel Skin Clarity System. Led by Dr Kian Karimi and Dr Desmer Destang, both of whom are industry experts in their field, doctors flocked to learn informative techniques on thread-lift and combined application of chemical peels including live demos by these two key leaders. The rooms were packed to the brim!

In terms of exhibition, we are honored and happy to see more than half of our exhibitors are returning clients! We felt truly appreciated that you see the value of our intimate exhibit setting that aided in cultivating relationships with our high conversion rate doctors. We appreciate the continuous support of our business and trust with us and will continue to bring exhibit quality worthy of your marketing investment.

Moving on, the next **16th AAAM Annual Congress** will be held on **Nov 8 – 10, 2019 in Long Beach, California**. We welcome you to join us again for another round of education, knowledge exchange and relationship building. Until then!

- 1 Industry Exhibition
- 2 Focused Pre-Congress Training Workshops
- 2 Industry Sponsored Live Demo Workshops
- 3 Board Certification Courses
- 5 Keynote Speakers
- 11 Breakout Sessions
- 31 Speakers
- 23 Sponsors and Exhibitors
- 60 Conference Topics
- 181 Delegates
