

Dr S. Ali MODARRESSI GH (Geneva, Switzerland)

Ali Modarressi, MD is actually the "chief of clinic" of Plastic, Reconstructive & Plastic Surgery department of University hospital of Geneva in Switzerland. During his 10 years training in Switzerland, Dr. Modarressi acquired important experience in all areas of plastic surgery including cosmetic, reconstructive surgery and microsurgery.

He is board certified with Swiss diploma of Plastic, Aesthetic & Reconstructive Surgery (FMH) and fellow of the European Board of Plastic Surgeons (EBOPRAS).

Major emphasis was placed on tissue regeneration with stem cells (fat grafting and platelet riche plasma) and wound healing, where he did an extensive research. Thanks to his basic science and clinical experience he trained many physicians since several years in different field of aesthetic medicine and surgery.

He is member of Swiss Society of Plastic, Reconstructive & Aesthetic Surgery (SSCPRE), International Federation of Adipose Therapeutic & Sciences (IFATS) European Society for Surgical Research (ESSR) and faculty member of American Academy of Aesthetic Medicine (AAAM).
