

Dr. Nadine Hamada

Dermatologist, Laser Specialist, Cairo, Egypt.

Dr. Nadine Hamada Moustafa, is a Dermatologist and Laser specialist with more than 11 years of experience in the field of dermatology and aesthetic medicine. As soon as she graduated from the medical school of Cairo University she focused on enriching her medical knowledge, so she got her Masters degree in Dermatology. Her growing interest towards Aesthetic medicine inspired her to do more, so she took post Master courses in both lasers, and Cosmetic dermatology in Cairo University. In further attempt to enhance her aesthetic knowledge she took a Laser degree through the National Institute of Lasers (Cairo University). And still passion driven she joined the American Academy of Aesthetic Medicine (AAAM) , she ceased AAAM’s board exam whilst topping her class of 2015. Her Academic top quality, along with her great passion to teaching Landed her proudly as an International Faculty member of AAAM.

She started her professional journey as a dermatology resident in Maadi Armed forces Hospital ,one of the top quality hospitals in Cairo, in which she has been trained and guided by many world leading regular expert-visitors of Maadi hospital from USA and Europe, at the same time she started her aesthetic profession joining Cairo laser Centre, which was established in 1997 known for being one of the first & leading laser centers to launch in Egypt and the Middle east. Utilizing her professional expertise and academic knowledge she cofounded and managed Bright skin Center-Dokki for laser and Aesthetic medicine. Following its great success in 2018 she co-founded Elle Cosmo clinics for laser, Aesthetic medicine and Plastic Surgery, and she is also Elle Cosmo Clinics managing director.

She also participates as a trainer and a speaker of aesthetic medicine in many national and international conferences and courses. Not forgetting of course that she is a member of both the “European Society of Lasers and light base devices” and the “Egyptian Academy of Dermatology and Venereology”. Self motivated by nature she travels around the world eager to learn more about Aesthetic medicine updates, thriving to fill her on going ambition and self development.
